## FALSTABRO BEACH MUSEUM

Behind the initiative are the Malmö couple Claes and Christina Lindquist. They open their collection to the public and developed a modern photo museum and unique destination in the Öresund region. This photo museum serves as a photo gallery shop to exhibit the success of people by showing through photos.

## HYLLIE VATTEN PARK

Hyllie Vatten Park (Hyllie Water Park). The water park is designed to promote activity, and its structures aim to blend into trees and greenery. In addition to meeting safety and security requirements relevant to public spaces, it boasts high accessibility and offers play facilities to encourage children to explore. A lot of people go there to relax and explore the wonderful paintings.

## HOLMNA MALMÖ

It is a small neighborhood where a local artist displays his work via graffiti of a head as a sign of togetherness for the people in the area. I believe this is a good sign that the neighbors stay united.

## FOLKETS PARK

Folkets Park is located in Sweden (Malmo). The name represents People's Park. It is a big park where children can play and spend time with their parents. Also, it is an open space for local artists to draw and show their creative drawing skills. I normally go there to get some fresh air and feel the natural atmosphere. I assume this art portrays that nature, animals and humans must stay in harmony.

## LUND ARTWORK

I saw this artwork on a wall while taking a walk. I am very sure there is a specific idea behind this painting :) I believe the arts of houses surrounding the city as a sign of unity.

## EASILY OVERLOOKED

I found this crawl painted on glas during my jogging session together with my dog near of my university. It is attached on a cement block near the ground next to a sidewalk. Therefore it isn't noticeable even though not intentionally hidden. I passed this piece of art many times but was always in a rush and so I never saw it. But today I had time and because its Sunday no people were around.

## GRAFITTIART

I saw this Graffiti on my way home from work. It made me think about the good and safe life that I have and how fast things can change sometimes. It made me feel sad and at the same time angry.

I hope that some day we will live in a peaceful world where everybody feels safe.

## BAR SHUTTER

This is the shutter of one of my favourite bars in Tübingen on a Sunday early in the morning. The bar literally sleeps like the sleeping beauty after a week full of busy evenings. In the time you can see this picture, the whole city usually is still calm and it fits the atmosphere. Thus, the feeling of the picture is actually intensified by the whole surrounding.

## SELF REFLECTION

I found this window on a trip in Copenhagen. It triggers me to ask myself these questions and, in general, to widen my knowledge about racial discussions and problems. I think it's a great idea to write the questions on a place where everyone, who walks past, stops and sees them.

## POEM TO GO

This picture was taken in Tübingen. Put 20 ct into the machine and you'll get a poem. I chose to take this picture because I think it is something special to find the art of poetry in this form in a city.
