

MY LIFE & MY IDEAS

“First of all, one should not lose hope. There will always be difficult situations, but if you have hope, you can try and overcome those difficulties.”

“There is no situation where we cannot do anything, every person can achieve anything.”

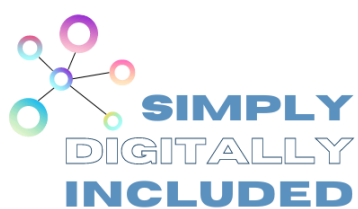

“I always thought in a positive way, for example, I was giving myself hope that the Covid period would end and schools would start again.”

“But I realized that we can use technologies in education. I like using mobile phone and computers. It would be more effective if we use it related to the lesson.”

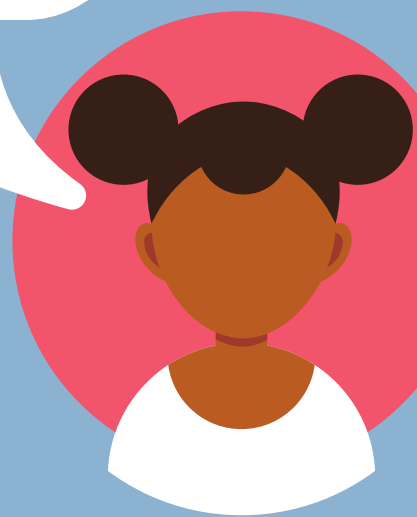

NEW HOME, NEW LIFE

"I enjoy coming here because in life it is better to have some way to learn something, as well as to meet with some people."

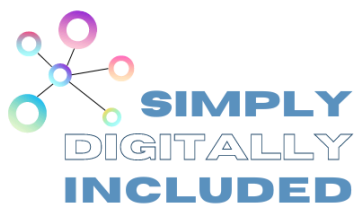

"In this country I have the opportunity to experience another culture and to have a future also. "

"Studying at our workshop means learning in a very practical way of studying, so I enjoy it a lot. We can learn with our friends, together."

RESETTLEMENT

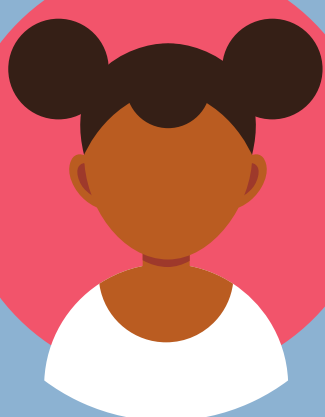

"We would go out and do grocery shopping and I would see the neighbours and I thought I'm the newcomer here, so I should say hi to everyone, but then no one would make eye contact with me."

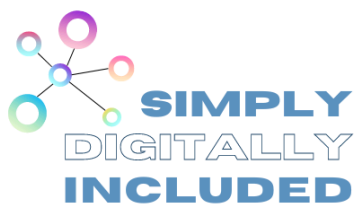

"I started looking online and see what kind of events I can join in Malmo, where can I make friends? Where can I find jobs? And I found International Citizen Hub online."

"...this is the Swedish culture. They're very reserved. And so I thought, okay, I'm going to adapt. I'm going to behave the same, which was difficult because that's not me."

OUR FIRST YEAR

"I've been speaking [German] for a year, but I'm not very good at it yet. Luckily, I met my best friend on my first day at school."

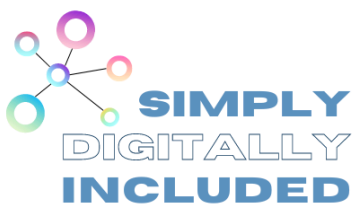

"It was easy for me to make new friends, as the class initially consisted exclusively of Ukrainians and we had no problem finding a common language. That helped a little, although it was hard to get used to the fact that I had to rebuild my life from scratch."

"Speaking German wasn't easy because we don't learn it in Ukraine, but I could speak English, which helped me a lot. [...] I want to learn German quickly, study and find a better job. I would like to do a lot of travelling."

MY WAY

"I was 15 years old at the time I moved to Slovenia because my mother met her new partner in Slovenia. I decided to move with her."

"There was also one Ukrainian guy that lived in Slovenia few years and he spoke with me in Slovenian. He explained me the words I didn't understand. I also listened Slovenian songs and watched movies with Slovenian subtitles."

"My idol is my professor of Slovenian language, because she encourages us to keep learning."
