

# CULTURE CROSSOVER

## PROJECT

Do you know why people with different culture backgrounds behave differently than you and your natives? Have you ever thought that someone from abroad is not easy to understand, strange or funny? Would you like to know more about how the values of culture influence on daily life? During the work in and with intercultural communities, we found the need to create the tool which would give the possibility to learn about cultural differences in easy and attractive way. The aim of the project is to create an innovative game and a mobile App, both to be used for playful intercultural challenges and learning.

The game will be based on cards that will help players understand and solve possible situations of intercultural misunderstanding and clashes. Through the game-based learning we want increase interest to the development of intercultural competences of young people and emphasizing the importance of dialogue and cultural exchange to make a world a better place to live for all the people. As the project is implemented by a partnership of organisations from Germany, Greece, Italy, Poland and Portugal, you will have a chance, not only to be a part of a great team, but also to meet and make new friendships across Europe, while understanding better the cultural diversity of our world.

## YOUTH GROUP

The main areas, rules and shape of the game will be identified, created and tested during youth meetings to ensure the production of an effective and appealing method for young people, to be used successfully by youth workers in several European countries. It is important for us to create a game which will be attractive and interesting for youth as well as based on youth experience about intercultural issues. We believe that involving the target group in the process of designing is the best solution to reach that goal, so we would like to invite you to be part of the Youth Group!

**WE ARE LOOKING FOR ACTIVE AND MOTIVATED PEOPLE TO BUILD THE YOUTH GROUP, SO IF YOU ARE:**

**A STUDENT** in the age between 16 and 26

**ABLE TO SPEAK ENGLISH** in a communicative way

**INTERESTED** in the topic of cultural differences

**WILLING** to take an active part and to get to know new people

**JOIN THE INTERNATIONAL TEAM!** and help us in creating the game during online meetings with the youth from other European countries!

## ONLINE MEETINGS

**WHAT?** 3 international remote meetings for participants from Germany, Greece, Italy, Poland and Portugal. The meetings will be focused on creating and testing a board/card game about cultural differences.

**HOW?** The meetings will be organized in a digital way using communication platform and interactive tools in order to base the work on activation methods.

**WHEN?** The meetings will be held once a month (18th of May, 18th of June, 17th of July) in the afternoon. Each meeting will last 2 hours.

**WHAT ELSE?** Before the first international meeting you will be invited to informational meeting in the group of participants from each country to get to know more about the online meetings and become familiar with digital tools.
